

# Effer-K® Sample Request Form

(potassium bicarbonate/citric acid effervescent tablets for oral solution)

Thank you for your interest in Effer-K (potassium bicarbonate/citric acid effervescent tablets for oral solution). **Effer-K** is an inexpensive, well tolerated potassium tablet that effervesces in cold water or juice to provide a palatable dose of liquid potassium citrate. **Effer-K** is indicated for therapeutic use in patients with:

- potassium depletion when the dietary intake of potassium ion is inadequate
- hypokalemia with or without metabolic alkalosis
- chronic digitalis intoxication
- hypokalemic familial periodic paralysis.
